Professional Summary

Experienced **Java Developer** with 4 years of experience in designing, implementing, and maintaining scalable, reliable, and efficient backend systems. Proficient in Java, Kubernetes, Spring Boot framework, RESTful APIs, Microservices architectures and Cloud deployments. Adept at optimizing system performance, ensuring high availability, working in fast-paced environments, and collaborating with cross-functional teams to deliver high-quality software solutions. Passionate about writing clean, maintainable code and solving complex technical challenges.

Technical Skills

- **Cloud Platforms:** AWS (EC2, ECS, ECR, RDS), Red hat OpenShift
 - **Containerization & Orchestration:** Docker, Kubernetes, Helm
 - **Programming/Scripting:** Java Spring Boot, Python Django, Linux
 - **Databases:** SQL Server, PostgreSQL
-

Professional Experience

Technology Analyst

Infosys – Bengaluru, KA, 03rd May 2021 – Present

- Designed Backend systems with Java Spring boot framework, Microservices architecture.
- Build and maintained RESTful APIs to enable seamless integration with frontend systems and other microservices for Inventory Management applications.
- Optimized Database queries and operations using Criteria API and Java Streams API which improved modularity and application performance by 25% compared to legacy applications.
- Packaged and Containerized applications using Maven, Docker, Kubernetes, and HELM Charts for deploying in cloud environments like AWS EC2, ECS and RHEL.
- Implementation of SDKs and CLI tools in Python and enhanced Backend Applications based on Django framework.

- Maintained Software Development Life Cycle (SDLC) of several applications including Spring boot, Django and Databases like MariaDB, Kafka, GraphQL, Cassandra, and MongoDB.
- Worked on optimizations for seamless deployment of Kubernetes resources (HELM) and SDKs for achieving single-touch automation improving operations team efficiency by large margins.
- Worked on ONAP, an open-source platform for orchestrating, managing, and automating network and edge computing services for network operators, cloud providers, and enterprises.

Education

Bachelors of Technology in Electronics and Communications

Raghu Engineering College, JNTUK Affiliated – Visakhapatnam, AP, 2020

Achievements

Certifications: [Certified Kubernetes Application Developer \(CKAD\)](#)

Awards: [Infosys RISE Award 2024, INSTA Awards 2022, 2023](#)

Projects

[Kubernetes dashboard build with Java Spring boot, Vaadin and K8s Client API frameworks](#) 2025

[Association Rule Mining algorithm Apriori using Python](#) 2020

[Stock Prediction with statistical arbitrage model using Python](#) 2018
